Mr. James Smith
Oil, Gas and Mining Division
4241 State Office Building
Salt Lake City, Utah 84114

Dear Mr. Smith:

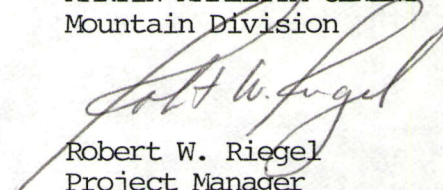

Martin Marietta's cement plant at Leamington, Utah is being phased into production and it is anticipated that all major equipment will be functioning and a final cement product will be produced in late December, 1981.

We expect that all construction will be completed by the middle of February, 1982.

Rick Patton, Plant Manager of the Leamington Plant, is the person to contact to make arrangements for a plant visit by you or your people.

Very truly yours,

MARTIN MARIETTA CEMENT
Mountain Division
